

Aero Radio Club of Syracuse
ARCS 2006 Field Rules

1. All AMA rules apply at the club field.
2. If a "full scale" aircraft is spotted in the vicinity (both behind and in front of the flight line) all fliers are required to land immediately or at least stay as far away as possible.
3. Only paid-up ARCS members and their guests are allowed to fly at the club field. A person may fly as a guest 3 times during a year, after which he will be asked to join the club.
4. Do not turn on your transmitter without the proper Frequency Control Pin. All radio systems must meet current AMA and FCC standards. All transmitters, when not in use, will be kept in the impound shed.
5. All transmitters will have an easily readable channel marker attached.
6. No flying is permitted over the pit area, spectator area, parking area, hangers, or behind the flight line. NO EXCEPTIONS.
7. A spotter who is not flying is recommended when several people are flying. The spotter's responsibility is to look for "full scale aircraft" and to warn model fliers of its approach.
8. Absolutely no flying is permitted without a valid AMA license. The only exception is for those in training with an AMA designated instructor.
9. A "flight list" will be maintained by arrival order and conducted in a "gentlemanly manner".
10. One individual will fly in his turn unless he specifically gives permission for others to fly at the same time. A flight turn shall not exceed 15 minutes without the permission of all other fliers.
11. The first turn after take-off shall be away from the flight line.
12. No test running of engines on the flight line.
13. Only fliers and competent helpers are allowed beyond the spectator's fence.
14. A spinner or AMA approved prop nut will be used on all engines.
15. No "Blasting off" directly from the flight line.
16. Alcoholic drinks while (or before) flying are strictly forbidden. If you must have a beer, save it until you are through for the day.
17. Field maintenance, including mowing and keeping the area picked up is expected of everyone who uses the field.
18. Driving across the airport runways or model flying field is prohibited. Use the access road.
19. It is the responsibility of every member to inform persons, when they are breaking the above rules. Those who continue to break the rules will be asked to leave and club officers must be informed.
20. Have fun. This is your club field. Keep it safe and courteous.
21. Your AMA card must be displayed openly when flying.
22. Planes are not to be taxied into the pit area. Planes may be taxied out of the pit area.
23. Planes are not to be started or run while up on the spools or tables.
24. Flying or Running of aircraft with internal combustion engines shall be limited to the hours of 10 AM and 8:30 PM Monday thru Friday and between 12 Noon and 8:30 PM on weekends and holidays.
