President's Message:

Looks like summer is over. It's getting cold, it's raining and it gets dark early. Here's what's going on along with some highlights of the past summer.

- We will have special guests at the meeting. Representatives from the local Civil Air Patrol will be joining us to give us an overview of their organization. For more information see: http://syracusecap.org/ or http://gocivilairpatrol.com .
- At the meeting, we will be deciding how to allocate the funds from the Pancake Breakfast. We typically give some to Doc's scholarship and put some in the general fund.
- The annual Picnic was a washout but we had a good time in the main hangar eating and talking about flying. Maybe next year we'll have some sun.
- A bunch of us invaded Old Forge for the Mountain RC fun fly. It was a good day with some wind but lots of flying took place. Walt and Jan again treated us to supper at their camp. Thanks Walt and Jan for the hospitality!
- Phil Artese's online flying club, the Badius Boys visited us this summer. They camped out at the field for a week and just flew airplanes. They are a great bunch of guys. I hope they had a good time and they are certainly welcome back at any time.
- We had lots of participation at our annual Fun Fly. It was a little windy but the rain held off. Kyle Murphy won the airplane raffle. Proceeds went to Doc's scholarship.
- Several club members also attended the STARS Show on Sept 6th. It was a nice day with a good variety of aircraft flying and on display. I hope it was a success for the STARS. It takes a huge effort to put on a show of this magnitude.
- Training nights will continue until the end of the month, weather permitting. The possible exception will be this week, Oct 8th. I will be out of town all week returning just in time for the meeting. I won't be there for training. It is possible that another instructor will be available but I can't confirm that yet.
- Plans are underway for the Model Forum. Details will follow as they become available.

See you at the meeting.

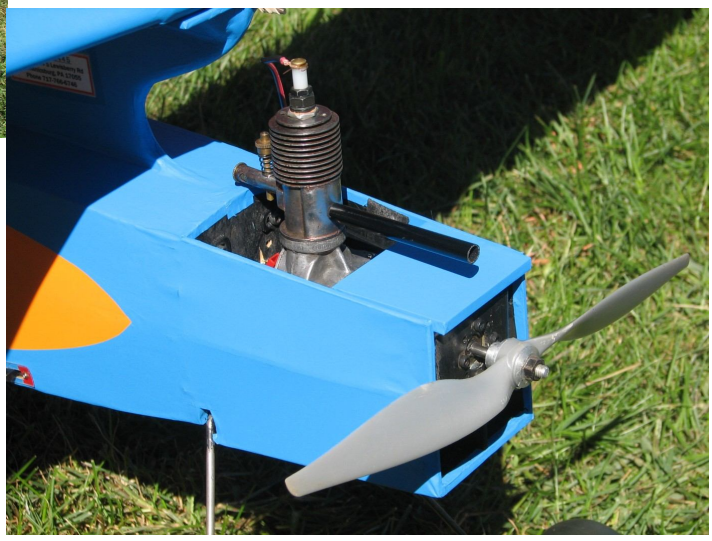
NEAT Fair (thanks to Al Metz)

An old timer at the NEAT Fair???



A closer look reveals that the old Brown engine is a dummy. The electric motor is hidden just ahead of the engine. There is no fuel line hooked up and if you look close enough you can see a red connector just behind the crankcase.

Calendar
