President's Message:

So we're back on Eastern Standard Time. That means it gets dark around 5PM. Looks like evening flying is done for the year but the weekends are still possible.

- The field will remain accessible as long as the weather allows. When we decide that the road is too wet for safe passage we will close and lock the gate. Please respect this decision.
- Volunteering at the MoST will be different this year. We will not be doing the Saturday sessions that we've been doing. Instead we will be attending the overnight sessions that they hold for scout groups. We spend about an hour there talking to a large group of kids and doing demo flights of indoor aircraft. This has proven to be more successful at finding interested youth. I'll be looking for volunteers when the time comes.
- Walt's Secret Santa Sale will be on Nov. 23rd. This is their kick-off to the Christmas shopping season. There are lots of good deals there and many interesting demonstrations. We will have a table set up to provide club information.
- The annual Christmas Party will be held at Anheuser-Busch again this year. We have a friend in a high place to be able to use this facility so be sure and thank (or worship) Kevin Kiniry when you see him!
- The next planning meeting for the Model Forum will be on Wednesday the 20th, 7:30 at Walt's. If you have ideas you would like to see happen at the forum, please come to the meeting. We could use some extra help and new ideas. If you can't make the meeting but have some input, let me know.
- The forum is scheduled for Feb 1st. As usual, the evening before will be for setting up the room.
- The STARS auction is on January 17th. More info to follow later.
- Be sure to renew your AMA and Club memberships. Kevin will be happy to take your money.
- Page 3 has a picture of one of my childhood role models. Watching this guy on TV day after day made me what I am today.

Hope to see you at the meeting!

Herb.

Since the weather is bad, here's something you can do in your living room.

Word Search: Words can run across, up and down or diagonal, forward or backward.
