President's Message:

Even though the flying season is over, there's still lots of things going on. December means Christmas Party!

- Thanks to Kevin, our annual Christmas Party will be held at Anheuser Busch again. The date is Dec 12th. It will start at 7. You can arrive as early as 6:30. Mike Amie is in charge of the food again. Thanks Mike! A map will be included with the newsletter.
- Congratulations to Kevin Kiniry. He did his own bearing replacement at the last meeting. He is officially an expert now.
- We attended the Secret Santa Sale at Walt's Hobbytown. Lots of interesting displays and new products to look at. Most everything was 20% off.
- The Model Forum plans are well under way. The event will be Jan 24th. If you want to help out with the planning, the next meeting is Dec 17th, 7:30 at Walt's Hobbytown.
- Bad weather cutting into your flying time? Consider joining the Camillus Indoor Aviators. For more information see <http://camillusindooraviators.blogspot.com/> or contact John Spencer (315-247-2716) or Phil Artese (315-382-5841) or Bob Preske (315-487-1286).
- Update on the estate sale. The sale was on December 6th in Jamesville. Some of the aircraft sold but very few people attended. I was a little surprised at that given the amount of interest generated ahead of the event and the amount of advertising we did. In any event, the remaining items are listed on page 2. If you are interested in any of them let me know.
- My brother-in-law's neighbor used to fly in the '70s. He had some vintage kits that I bought from him. They are still in their original boxes and have never even been taken out of the boxes. They are listed on page 3. Contact me if you are interested.
- Don't forget the annual New Years Day fun fly. Thursday, Jan 1st starting at 11AM. Start the new year off right with frostbite! There will be lots of food too.
- Don't forget to renew your AMA and club memberships!
- Merry Christmas and Happy New Year!

Hope to see you at the Christmas Party!

Vintage Kits for sale: A few examples

These are all from the '70s. Kits are new in the box. They have never been removed from the box. Time-travel to the past!

Mark's Models Windfree Sailplane– 99.25" span

Mark's Models Sunny Biplane– 40" span, .15 engine recommended– Great for electric!

Airtronics Aquila sailplane– 99" span

Jasco Scout Sailplane– 72" span, knocks down to fit in an 18" long box. Already built.

Bud Nosen Citabria– 105 3/4 span, 1/4 scale, says it needs a .60, 10 1/2 lbs finished weight

A-Justo-Jig wing and fuselage building jig

If you are interested in any of these, contact me. I'll have them at the Christmas party.
