President's Message:

Fall means that it's time to start our meetings again. They will typically be on the second Friday of each month at Walt's Hobbytown at 7PM.

It's been quite an eventful summer. Lots of things going on at the field:

- In early June we attended Marcellus Old Home Days. We set up an information booth and had a lot of interest from the public.
- Our annual Pancake breakfast was a huge success. We made over \$2000.00 for our part of the effort. Thanks to all that helped and thanks to Jeff Duden for coordinating the whole thing.
- July 9th we held our annual club picnic. Many club members and their families attended. A great time!
- August 6th we had our annual fun fly. Attendance was a little light, possibly due to the new FAA requirements and possibly due to our renewed enforcement of our sound limits.
- To my knowledge there has been no new problems with sound at the field. Everyone has been cooperative and willing to make changes to their aircraft to lower sound levels. We will continue to enforce the 93dB at 3 meters sound limit. If your aircraft is louder than that you simply can not fly it at our field.
- Thanks to the club members who have mowed the field all summer. Lots of people have contributed, especially Fred Eberhardt, Nate Eberhardt and Dick Skutt. Nice work guys!
- Congratulations to Stefani Reynolds. She is once again the recipient of the Doc Schwarz memorial scholarship. She is continuing her education at the Pratt Institute in Brooklyn, majoring in Photography.
- As the weather gets worse, consider indoor flying at the CIA. For more information, contact Phil Artese.
- Planning has begun for the Model Forum. It will be held on Jan 21st. The first planning meeting is on Friday Oct 21st at 7:30 at the CIA. Feel free to attend. We need fresh faces and ideas!
- The AMA has sent out election ballots for 2017. There are 3 candidates for president. Please read their campaign statements carefully and be sure to submit your ballot before November 8th!

See you soon!
