President's Message:

Wow. December already. Flying season is over so time to do some repairs and maybe build something new. I hope Santa is good to you.

- Our family Christmas party is Friday at the airport, 6:30. We will have pizza, ziti, drinks, etc. Please bring the family and be prepared to have a good time!
- Also, please plan to attend our annual New Years Day fun fly. In case you couldn't figure it out it is on Jan 1st at the main hanger starting at around 11AM. Food and drinks will be provided!
- The Marcellus school aviation club build is going well. We have had up to 7 students. The fuselage is mostly done as are the wings and tail feathers. So far it looks like we will be on track to complete it by spring.
- The STARS are again hosting their annual auction. It will be Jan 26th. See page 2.
- The CIA indoor flying site is being researched. Based on input last spring, we will be seeking to get flying time during the day. Evenings are no longer available. We will be targeting Wednesdays, possibly in the afternoon. More info will follow.
- Chris Muniz has been updating our newest facebook page. He is requesting that we upload any photos we may have to that page. This is the link: <https://www.facebook.com/groups/arcs1950> . They could either be uploaded directly or send to Chris and he will upload. It'd be great to have some older photos too! His contact info is chris.connec@gmail.com .
- Dues are due! Please get your payment to Kevin as soon as possible. Late fee kicks in after January. Info on page 3.
- There have been a few questions and some confusion about the FAA renewal process. Luckily, the AMA has posted a step by step tutorial about how to complete it. The difficulty is that they ask you to register a specific aircraft. It turns out the best approach is to call it a "Homebuilt" with no manufacturer. The web site will be happy and so will you. Here's a link to the AMA tutorial. Just do what it says and it will work well: <https://amablog.modelaircraft.org/amagov/2022/08/09/update-to-the-faa-dronezone-and-registration-renewal-process/>

See you at the meeting!

315- 857-6266 herbz1957@yahoo.com
Herb.

Elon Musk's artwork. His parents must be so proud!

Ok, not aviation related but funny.

Some important links:

TRUST Test– Everyone who flies must pass this test. Don't worry it will coach you through until you get it right.

<https://trust.modelaircraft.org>

FAA registration: Everyone who flies outdoors must be registered with the FAA.
