President's Message:

Winter is finally here. It's a good time to work on all the nice things you got for Christmas.

- Our Annual New Years Day fun fly is now history. The weather was awful. High winds, rain, Yuck! Still, we had 16 attendees and some of us flew. Many others stayed warm and ate food. We made the AMA news. Take a look at:

<https://amablog.modelaircraft.org/blog/ama-members-log-first-flights-of-the-new-year/>

- The Marcellus School Aviation club is back on track after a 2 week break. Some progress is on page 2.
- The build of the 1/6 scale Wright Flyer is going well. We are working toward wing assembly which will involve lots of rigging and fixtures.
- There is a lot of interest in CPR/AED training. Based on input at the last meeting, Most people would prefer to take online training instead of attending a class. I took the online training and I think it is well done.

There are 4 options.

- Adult, Child And Baby First Aid/CPR/AED
- Adult First Aid/CPR/AED
- Adult CPR/AED
- Child And Baby First Aid/CPR/AED

I took the first one which has the most content. It takes more than 2 hours to complete everything. You can save your progress any time you want and return later. The ones with lesser content will be faster, obviously. The club voted to cover the \$37.00 cost of club members. An added plus is that Terry was able to take the course with me. She doesn't get a certificate at the end but she learned the content. Here's a link to the [training](#):

- Indoor flying is open again at the Memphis Baptist Church. It is on Wednesdays from 1PM to 4PM. If you plan to attend I need to know so I can unlock the doors. Contact me if you need more info.
- Dues are due! Kevin will take your money. He has a new address which is listed on the form on page 3. Late fee applies after Jan 31st.

See you at the meeting!
